Mr. Mark Matthews
USEPA Region VII
726 Minnesota Avenue
Kansas City, Kansas 66101

Dear Mr. Matthews

I would like to take this opportunity to notify you that we will proceed with the removal of the previously discovered paint cans located at our Wichita facility. Our last correspondence was on 20 November 1992 detailing the method of waste determination as established with conversations between Sandra MacLeod and Russell Zora. We intend to begin excavation of this solid waste management unit (SWMU) on August 9 if weather permits. I have attached a copy of this previous correspondence for your convenience. If you have any questions about this project, please give me a call at our Wichita facility. My direct number is (316) 268-9484.

Sincerely,

Cary D. Mans
Facility Production Manager
